

THE CATHOLIC UNIVERSITY OF AMERICA

DEPARTMENT OF ELECTRICAL ENGINEERING AND COMPUTER SCIENCE

EE 516 Power Systems

Project 1: Simulink and Its Outputs

Submitted to: Georges Nehmetallah (Phd)

Student Name: Muluaem Ayena

Submitted On: 19 Mar 2026

Simulation 1: Steady state Simulink

The output graphs

Simulation 2: Free-moving magnet simulation

The Outputs of Free-moving magnet

Ready Sample based T=0.5000

Ready Sample based T=0.5000

Ready Sample based T=0.5000

Simulation 3: Sub-layer Version

Simulation 3.1: The circuit_SubModel
